ABOUT TIIME

The TIIME Unconference returns!

The well established open space Trust and Internet Identity Meeting Europe, which ran between 2013 to 2020 in Vienna will this year be hosted in Copenhagen, Denmark between Jan 31 and Feb 01, 2024.

The 2024 conference will again bring together around 100 experts and key stakeholders from across Europe for more than 30 sessions on topics in Identity Management from architecture and technology to policy, privacy and business. The event is organized by GÉANT, SURF, DeiC and DAASI International, and will take place at the University of Copenhagen.

This conference is a unique place to showcase your innovative products and services to the select group of leading experts in trust and identity in research and education, government and business. The event provides you with a great opportunity to directly engage with the participants in an innovative, open and informal setting. We would be delighted to have you become a sponsor of the event and thus a promoter of an open discourse that advances the technology and its use.
